

Whakamana tamariki, Whakamana kaiako Value children, Value teachers

No matter who we are or where we live, we all want our tamariki to have access to quality early childhood education.

Early childhood teachers are trained and qualified to make sure our youngest children get the best teaching and learning - just like teachers in kindergartens and schools.

But we're not paid like them. In fact ECE teachers are paid up to 52% less.

There's a major shortage of teachers in early childhood with too many people leaving the profession. That puts huge pressure on those remaining to meet the needs of tamariki.

It's vital we win fair pay to attract and keep great teachers to nurture, educate and support our children.

Please support us – sign up to www.ecevoice.org and tell the Government it's time to deliver pay parity now!
